Cx DATA MATCH REPORT

1.	Purpose	This report enables practices to check on the screening status of their patients in the absence of direct access to the National Screening Registry
2.	Frequency	Monthly - 28th of each month.
3.	Report name in Indici/PHO Folder and Medtech/Healthlink Folder	file name: [practice_id]_cervical_screening_data_match_[month]_[year].xlsx example: 1110_cervical_screening_data_match_October_2024.xlsx *(The first four digits vary depending on the practice).*
4.	User	Administration and/or Clinical
5.	How to Use	It could contain one to four sheets (sheets are generated only if data is available): 1. List of screened elsewhere of the current quarter 2. List of last screened 5 or more years ago 3. List of anyone who requires follow-up 4. Full data set
