Quality Improvement Plan

Clinical indicator			
Name of practice			
Problem statement *What is the issue you have identified?*	*Use a tool such as the fishbone to determine this. An example could be 'The current situation is _____leading to _____ (undesirable event)'*		
Equity considerations *What approaches and resources did you use?*			
Data sources	*Eg Power BI*		
Aim statement *What are we trying to accomplish?*	*To increase/decrease: _____* *From _____ (goal/target/%)* *To _____ (goal/target/%)* *By _____ (date, 3 – 6 month timeframe)* *In _____ (population)*		
Family of measures *How will we know that a change is an improvement?* **Initially, you may only be able to identify the outcome measure. The process and balancing measures may be easier to define with your change ideas (Q2 onwards).**	**Outcome**	**Process**	**Balance**
	From the aim statement determine how you will measure data to show improvement. Note: this will be highly related to the aim statement.	*Helps you determine if you are doing the right things to achieve your outcome measures*	*Helps determine if the changes you are introducing in one part of the system are impacting another part of your system*
	Numerator description	*Numerator description:*	*Numerator description:*
	Denominator description	*Denominator description:*	*Denominator description:*
Primary drivers identified *(get this from your driver diagram)*			
Change ideas *What change can we make that will result in an improvement? (get this from your driver diagram)*	**Change theme**	**Change idea**
